

Graduation Survey

Emma Sierp

Overview

Problem

It is extremely hard for students to graduate on time and find jobs after graduating

Goal

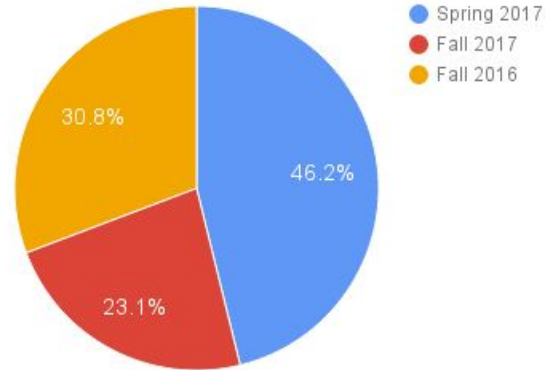

Use a survey to determine if members of this course, as well as other college undergraduates are planning to graduate on time and what their job search looks like if they are intending to graduate on time

Survey Questions

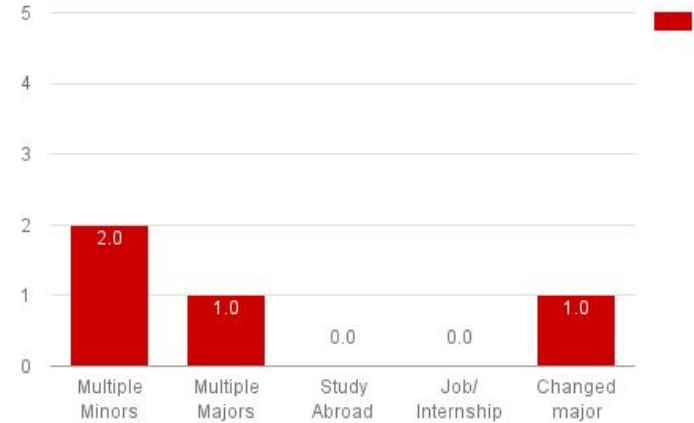

1. What year are you in school?
 2. What is your expected graduation?
 3. Are you planning to graduate on time?
 4. If no, what has delayed graduation?
 5. If yes, have you found a job-post grad?
 6. How do you plan on finding jobs post-grad?
 7. If you have a job, is it related to your major/minor?
-

Results

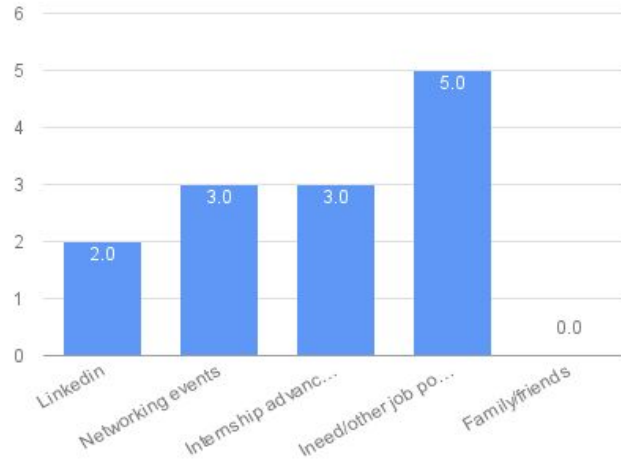

What is your expected graduation?

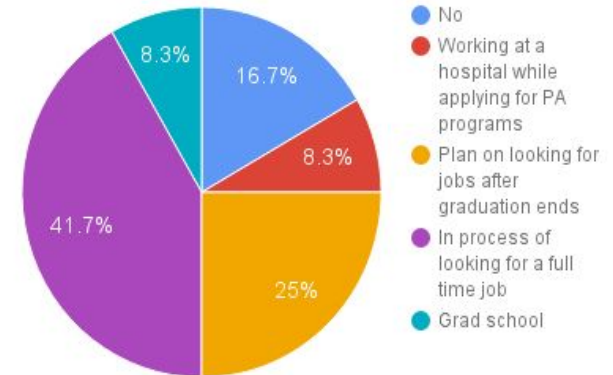

What has Delayed Graduation?

How do you plan on finding jobs post-grad?

Have you found a job post-grad?

Impact

- Majority of students are graduating on time-- some graduating one semester early and some graduating one semester late
 - Majority of graduating seniors are in process of finding a job post-grad, but none have actually found a job yet
 - Of those that are currently looking for jobs; they are using networking events, current internships, and various job posting websites to find jobs
 - This means that it is imperative for networking events and job search websites to maximize their efforts and work harder to hire students these ways
-
